

Sketch view of the upgraded community centre

# Kennington Park Community Centre update

We're investing in Kennington Park Community Centre. Plans for the site are progressing well and we're aiming to submit a planning application this year. We'll also host an open event to showcase the final designs once they're ready.

## Our proposal:

- Refurbish and extend the current building to improve the quality of facilities and make the building more efficient.
- Improve the courtyard garden
- Create a new community café with modern facilities
- Build eight new social rent apartments.
